

Swimming Pools Impacted by Smoke and Ash Guidelines to Drain Your Pool or Spa in Santa Rosa

City of Santa Rosa

- If your property is located within the City of Santa Rosa call:
The City of Santa Rosa, Environmental Compliance(EC) Section (707) 543-3369
- The City of Santa Rosa EC Inspector will verify that the affected address is in a working sanitary sewer system.
- Some sanitary sewer collection systems in Fountaingrove are not presently functional.
- Trucked pool water will be allowed discharge into the City of Santa Rosa Water Reclamation Facility.
- During a site visit the EC Inspector will verify the proper discharge point into the sanitary sewer.
- The inspector will verify the distance from a burned structure.
- If the pool is within three feet of a burned structure, water may not be discharged to the sanitary sewer without testing.
- There will be no permit or fee for Santa Rosa residents discharging into the sewer at their pool address.
- It is the responsibility of the homeowner to know if their pool may be discharged. It may not be in the Army Corps of Engineers plan for a pool to be discharged. Please verify.
